DOC SECURITY REQUIREMENTS & PROCEDURES

1. REQUIREMENTS:

The correctional facility has issued regulations to be observed by all contractors, their subcontractors (if any) and employees and other firms providing services for or otherwise assigned to or working on the project in order to minimize disruption to prison operations, maintain security and facilitate the construction process. While working inside the prison facilities on a regular or occasional basis, it must be clearly understood that prison security requirements will at all times take precedence over construction operations. The contractor shall comply with all such regulations and consider the regulations when preparing his/her bid.

2. WORKING AT A DEPARTMENT OF CORRECTION FACILITY:

- a. In order for the Department of Correction (DOC) to ensure security on the job site, the prime contractor shall submit a list of all proposed workers who will be working on the site to the DOC including name, social security number, age, sex, race and date of birth. This list shall include all sub-contractors (if any) and any vendors requiring access to the secure perimeter of the facility.
- b. Workmen will not be permitted on the campus without approval.
- c. All tools, equipment, supplies, etc., shall be removed from the compound building daily.
- d. A list of tools must be supplied with each truck. Inventory shall be taken by the contractor at the beginning and end of each workday. - f. Proper construction clothing is required. Short pants are not permitted.

- i. Contractors are requested to notify the Director of Custody of Operations upon the termination of worker's services in order that the identification card on file can be pulled and rendered inactive.
